Building a culture of aloha in the WL classroom is...

- loving, caring, fun-filled human relationships which are at the core of human flourishing. (Yos, 2012)

- successful collegial teaming inspires both instructors and learners with a deeper understanding of culturally responsive pedagogy (Wages, 2012).

- This session explores culture and values as the foundation of informing language teaching in a **Kaikua’ana-Kaikaina** model of symbiotic roles that are shared and exchanged as needed in teaming experiences grounded in place-based education (Smith, 2002).
